NOTE.

It has been considered desirable (as in 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as in Ireland the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Carlow; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit, beginning with the Province of Leinster, to be followed by those of Munster, Ulster, and Connaught.

CENSUS OF IRELAND, 1901.

COUNTY OF CARLOW.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Carlow from the Census Returns of 1901.

SUMMARY.

Area.

The (Administrative) County of Carlow covers an area of 221,473 statute acres, or 1·1 per cent. of the total area of the country.

Population. (Table ii.)

The number of persons in the County of Carlow according to the Census was—in 1881, 47,855; in 1891, 41,964; and according to the recent Census, 37,748 (19,009 Males and 18,739 Females), or 10·0 per cent. less than in 1891.

Families and Houses (Table viii.)

The number of distinct Families in the County at the time of the late enumeration was 8,051, the average number of persons in a family being thus 4·6; and the number of Inhabited Houses was 7,934, showing an average of 4·7 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms (Tables ix & x.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 6,039, or 75·0 per cent. of the total number of families in the County, and of these 562 or 7·0 per cent. of the total number of Families in the County were occupiers of one room; 2,410 or 29·9 per cent. occupiers of two rooms; 1,823 or 22·6 per cent. occupiers of three rooms; and 1,244 or 15·5 per cent. occupiers of four rooms.

The number of Tenements of One Room in the County was 562, comprising 200 cases in which the room had only one occupant; 260 where the room had 2, 3, or 4 occupants; 94 cases in which there were 5, 6 or 7 occupants; and 8 cases where the occupants exceeded 7 in number, including 3 cases of 9 persons and 1 of 10 persons in the room.

Co Districts (Table vi.)

The following Statement shows, by County Districts (as constituted under the Local Government (Ireland) Act, 1898), the number of persons in 1891 and 1901; and the decrease during the decade:—

County Districts	Population		Decrease between 1891 and 1901	
	1891	1901.	Number	Rate per cent
Carlow Urban	6,619	6,513	106	1·6
Baltinglass No. 2 Rural	5,185	4,486	699	13·5
Carlow No. 1 Rural	26,164	23,213	2,951	11·3
New Ross No. 3 Rural	3,996	3,536	460	11·5
Total,	41,964	37,748	4,216	10·0

From the foregoing Statement it will be observed that the highest per-centage of decrease in the County Districts took place in Baltinglass No. 2 Rural and New Ross No 3 Rural, viz, 13·5 and 11·5 respectively; and the lowest in Carlow Urban, viz., 1·6.

Birthplaces of the Inhabitants (Table xxv.)

Of the persons enumerated in the County in 1901, 81·99 per cent were born therein, 14·26 per cent. in other Counties of the Province of Leinster; 1·30 per cent. in Munster; ·76 per cent. in Ulster; ·45 per cent in Connaught; ·91 per cent. in Great Britain; ·33 per cent. were born abroad; and 1 person was born at sea.

Civic Areas (Table v.)

Towns having, in 1901, a population of 2,000 and upwards are classified in the Tables as Civic Areas.

The County contains one such Area, viz., Carlow Urban District. In 1891 the population of that area amounted to 6,619; in 1901 it was 6,513, showing a decrease of 106 persons, or 1·6 per cent; in the rural portions of the County the decrease was 11·6 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Carlow in 1901:—

Religious Professions (Table xxix.)

Religious Professions	1901	
	Number of Persons	Per-centage of Total Population
Roman Catholics,	33,399	88·5
Protestant Episcopalians,	3,946	10·5
Presbyterians,	164	0·4
Methodists,	197	0·5
All other Denominations (and Religion unascertained),	42	0·1
Information refused,		
Total,	37,748	100·0

From the above Table it will be seen that of the total population of the County in 1901, 88·5 per cent. were Roman Catholics, 10·5 per cent. Protestant Episcopalians, 0·4 per cent. Presbyterians, 0·5 per cent. Methodists, and 0·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 88·3 per cent.; Protestant Episcopalians, 10·9 per cent.; Presbyterians, 0·3 per cent.; Methodists, 0·4 per cent.; and members of all other Denominations. 0·1 per cent. of the population of the County as then constituted.

COUNTY OF CARLOW.

Education (Tables xxx and xxxiii)

The following Statement shows the Educational status of the Inhabitants of the County of Carlow in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per centages are based being those for the County as constituted in the respective years :—

Degrees of Elementary Education	Rate per cent of Total Population	
	1891	1901
Read and Write,	66·8	76·5
Read only,	10·5	5·8
Illiterate,	22·7	17·7
Total	100·	100·

From the above it will be seen that whereas, according to the Returns of 1891, only 66·8 per cent. of the Inhabitants, at all ages, could "read and write," in 1901 76·5 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 10·5, and in 1901 5·8; and that the per-centage of the "illiterate" fell from 22·7 in 1891 to 17·7 in 1901.

In 1891 14·9 per cent. of the inhabitants aged five years and upwards were illiterate (15·2 per cent. of the males and 14·6 of the females); in 1901 the per-centage was but 9·2 (9·7 of the males, and 8·7 of the females).

Religious Professions and Education (Table xxxiii)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 9·9 per cent. of Roman Catholics, 3·1 per cent. of Protestant Episcopalians, 5·1 per cent. of Presbyterians, 1·1 per cent. of Methodists, and 7·9 per cent. of "all other Denominations" were Illiterate.

School Attendance (Table xxxviii)

The number of children attending school in the County of Carlow, according to the Census of 1891 (week ending 30th May), was 6,187; or 46·8 per cent. of persons aged 5 years and under 20 in the County as then constituted, in 1901 the number returned (for week ending 11th May), was 5,875, or 53·6 per cent. of the persons aged 5 and under 20.

The Sick (Table xii)

In 1891 the number of persons in the County of Carlow (as then constituted) returned as Sick, on the night of the Census, was 271, or one in every 151 of the population; in 1901 the number so returned was 309, or one in every 122 of the population; of the latter number 150 were at their own homes, and 159 were in hospital.

Pauperism. (Table xii)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,271, or 1 in every 32 of the population; of this number 421 were inmates of Workhouses, and 850 were in receipt of outdoor relief; in 1901 the number returned was 1,220, or 1 in every 31 of the population; 355 of these being in the Workhouse, and 865 on outdoor relief.

Marriages Births, and Deaths (Table xiv)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act, which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Carlow during the ten years ending 31st March, 1901, was 1,712, equal to an average annual rate of 4·3 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 8,325, affording an average annual rate of 20·9 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 7,617, being equal to an average annual rate of 19·1 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration (Table xii)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Carlow, amounted to 2,610 (1,375 males and 1,235 females); the number for the decade ending 31st March, 1891, was 3,064; for that ending 31st March, 1881, 5,440; for that ending with March, 1871, 5,405; and for that ending with March, 1861, 10,713, making a total of 32,232 for the fifty years.

(a) The increase is attributed to removals to Townland since 1891.

(*b*) The area and valuation of Tinnahinch town are included in the area and valuation of Tinnahinch townland on which it stands. The estimated area of the town is 20 acres. The decrease in houses and population in 1891 was attributed to the closing of a starch factory, and to some houses having been included in the town, in 1881, which more properly belonged to the townland.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described —

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, Its extent, as shown by the number of rooms. 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *i.e.*, their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows, in the second, what might be considered a good farm house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz —

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

*The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Dublin; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit, beginning with the Province of Leinster, to be followed by those of Munster, Ulster, and Connaught.

CENSUS OF IRELAND, 1901.

COUNTY OF DUBLIN.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Dublin from the Census Returns of 1901.

SUMMARY.

Area. The (Administrative) County of Dublin covers an area of 218,873 statute acres, or 1·1 per cent. of the total area of the country.

Population (Table II.) The number of persons in the County of Dublin according to the Census was—in 1891, 148,210; and according to the recent Census, 157,568 (71,398 Males and 86,170 Females), or 6·3 per cent. more than in 1891.

Families and Houses (Table VII.) The number of distinct Families in the County at the time of the late enumeration was 31,325, the average number of persons in a family being thus 4·8, and the number of Inhabited Houses was 27,682, showing an average of 5·4 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms (Tables IX., X.) The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901, was 18,500, or 59·1 per cent. of the total number of Families in the County, and of these 31 were occupiers of part of a room only, 3,255, or 10·4 per cent of the total number of Families in the County were occupiers of one room; 7,952 or 25·4 per cent., occupiers of two rooms, 4,492, or 14·4 per cent., occupiers of three rooms; and 2,770, or 8·9 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 3,266, comprising 1,004 cases in which the room had only one occupant; 1,682 where the room had 2, 3, or 4 occupants; 492 cases in which there were 5, 6, or 7 occupants; and 88 cases where the occupants exceeded 7 in number, including 10 cases of 10 persons and 2 of 11 persons in the room.

Co. Districts (Table VI.) The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901, and the increase or decrease during the decade:—

County Districts	Population		Increase or Decrease between 1891 and 1901		
			Number		Rate per cent
	1891	1901	Increase	Decrease	
Blackrock Urban	8,401	8,719	318	—	3·8

Dublin South Rural	13,236	13,670	434	—	3·3
Rathdown No. 1 Rural	12,227	12,808	581	—	4·8
Total	148,210	157,568	9,358	—	6·3

From the foregoing Statement it will be observed that there was a decrease of 109 persons in Celbridge No. 2 Rural, and an increase in each of the other County Districts. The highest per centage of increase took place in Rathmines and Ratbgar Urban, viz., 17·3, and 7·5 respectively; and the lowest in Balrothery Rural and Kingstown Urban, viz., 0·3 and 1·4 respectively.

Birthplaces of the Inhabitants. (Table XXV.) Of the persons enumerated in the County in 1901, 63·20 per cent were born in Dublin County or City; 17·64 per cent in other Counties of the Province of Leinster; 5·04 per cent. in Munster; 4·43 per cent. in Ulster; 2·20 per cent. in Connaught; 6·25 per cent in Great Britain; 1·24 per cent. were born abroad; and 12 persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

Civic Areas The County contains seven such Areas, viz., Kingstown, Blackrock, Rathmines and Rathgar, Balbriggan, Dalkey, Killiney and Ballybrack, and Pembroke. In 1891 the population of these Areas amounted to 85,899, in 1901 it was 92,875, showing an increase of 7,476 persons, or 8·8 per cent.; in the Rural portions of the County the increase was 3·0 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Dublin in 1901:—

Religious Professions (Table XXIX.)

Religious Professions	1901	
	Number of Persons	Per-centage of Total Population
Roman Catholics,	110,879	70·4
Protestant Episcopalians,	37,674	23·9
Presbyterians,	3,585	2·3
Methodists,	2,322	1·5
All other Denominations (and Religion unascertained),	3,018	1·9
Information refused,	90	0·0
Total,	157,568	100·0

From the above Table it will be seen that of the total population of the County in 1901, 70·4 per cent. were Roman Catholics, 23·9 per cent. Protestant Episcopalians, 2·3 per cent. Presbyterians, 1·5 per cent. Methodists, and 1·9 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 69·7 per cent.; Protestant Episcopalians, 24·6 per cent.; Presbyterians, 2·4 per cent, Methodists, 1·4 per cent.; and Members of all other Denominations, 1·9 per cent. of the population of the County as then constituted.

Education, (Tables xxx and xxxiii)

The following Statement shows the Educational status of the Inhabitants of the County of Dublin in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education	Rate per cent. of Total Population	
	1891	1901
Read and Write,	75·3	80·7
Read only,	6·0	3·6
Illiterate,	18·7	15·7
Total	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 75·3 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 80·7 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 6·0, and in 1901, 3·6; and that the per-centage of the "illiterate" fell from 18·7 in 1891 to 15·7 in 1901.

In 1891 10·1 per cent of the inhabitants aged five years and upwards were illiterate (11·4 per cent. of the males, and 9·1 of the females), in 1901 the per centage was but 7·3 (8·4 of the males, and 6·4 of the females).

Religious Professions and Education (Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 9·4 per cent of Roman Catholics, 2·7 per cent. of Protestant Episcopalians, 1·8 per cent. of Presbyterians, 2·4 per cent. of Methodists, and 2·6 per cent of "all other Denominations" were illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the County of Dublin, according to the Census of 1891 (week ending 30th May), was 27,875, or 51·0 per cent of persons aged 5 years and under 20 in the County, as then constituted; in 1901 the number returned (for week ending 11th May) was 24,071, or 52·4 per cent. of the persons aged 5 and under 20.

The Sick (Table xii.)

In 1901 the number of persons in the County of Dublin returned as Sick, on the night of the Census, was 1,177, or one in every 184 of the population, of this number 459 were at their own homes, and 718 were in hospital.

Pauperism (Table xii.)

The number of persons returned in 1901 as receiving relief under the Poor Law System was 3,164, or one in every 50 of the population, 1,393 of these being in the Workhouses, and 1,771 on outdoor relief.

Marriages Births, and Deaths (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar General, the number of Marriages registered in the County of Dublin, during the ten years ending 31st March, 1901, was 8,516, equal to an average annual rate of 4·7 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4·8 per 1,000.

(a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.

Note.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st. Its extent, as shown by the number of rooms: 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, viz., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window, in the third a better description of house, varying from one to four rooms and windows, in the second, what might be considered a good farm house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior" upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the City (or County Borough) of Dublin; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit, beginning with the Province of Leinster, to be followed by those of Munster, Ulster, and Connaught.

CENSUS OF IRELAND, 1901.

CITY, OR COUNTY BOROUGH, OF DUBLIN.

In addition to the information contained in the City Tables, it has been deemed advisable to give the following Summary of the results obtained respecting the City or County Borough of Dublin from the Census Returns of 1901.

SUMMARY.

Area

The City or County Borough of Dublin covers an area of 7,911 statute acres, or 0·04 per cent. of the total area of the country

Population (Table I.)

The number of persons in the City of Dublin according to the Census was—in 1891, 268,650; and according to the recent Census, 290,638 (140,388 Males and 150,250 Females), or 8·2 per cent. more than in 1891.

Families and Houses (Table VII.)

The number of distinct Families in the City at the time of the late enumeration was 59,263, the average number of persons in a family being thus 4·6, and the number of Inhabited Houses was 32,061, showing an average of 8·6 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms (Tables X & X.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 46,869, or 79·0 per cent. of the total number of families in the City, and of these 92 were occupiers of part of a room only; 21,702, or 36·6 per cent. of the total number of Families in the City were occupiers of one room; 13,620, or 23·0 per cent. occupiers of two rooms; 5,971, or 10·1 per cent. occupiers of three rooms; and 5,484, or 9·3 per cent. occupiers of four rooms.

The number of Tenements of One Room in the City was 21,747, comprising 3,278 cases in which the room had only one occupant, 13,320 where the room had 2, 3, or 4 occupants; 4,576 cases in which there were 5, 6, or 7 occupants; and 573 cases where the occupants exceeded 7 in number, including 47 cases of 10 persons, 13 of 11 persons, and 6 of 12 or more persons in the room.

Birthplaces of the Inhabitants (Table XXV.)

Of the persons enumerated in the City in 1901, 66·6 per cent. were born in Dublin City or County; 16·2 per cent. in other Counties of the Province of Leinster; 4·9 per cent. in Munster; 3·5 per cent. in Ulster; 2·0 per cent. in Connaught; 5·5 per cent. in Great Britain; 1·3 per cent. were born abroad; and 42 persons were born at sea.

The following Statement shows, according to Religious Professions, the Inhabitants of the City of Dublin in 1901:—

Religious Professions (Table XXIX.)

Religious Professions.	1901	
	Number of Persons	Per-centage of Total Population
Roman Catholics,	237,645	81·8
Protestant Episcopalians,	41,663	14·3
Presbyterians,	4,074	1·4
Methodists,	2,342	0·8
All other Denominations (and Religion unascertained),	4,862	1·7
Information refused,	52	0·0
Total,	290,638	100·0

From the above Table it will be seen that of the total population of the City in 1901, 81·8 per cent. were Roman Catholics, 14·3 per cent. Protestant Episcopalians, 1·4 per cent. Presbyterians, 0·8 per cent. Methodists, and 1·7 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 82·2 per cent.; Protestant Episcopalians, 14·4 per cent.; Presbyterians, 1·4 per cent.; Methodists, 0·7 per cent.; and members of all other Denominations, 1·3 per cent. of the population of the City as then constituted.

Education (Tables XXX and XXXIII.)

The following Statement shows the Educational status of the Inhabitants of the City of Dublin, in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the City as constituted in the respective years:—

Degrees of Elemen ary Education.	Rate per cent of Total Population	
	1891	1901
Read and Write,	69·1	75·7
Read only,	6·9	4·6
Illiterate,	24·0	19·7
Total	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 69·1 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 75·7 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 6·9, and in 1901, 4·6; and that the per-centage of the "illiterate" fell from 24·0 in 1891 to 19·7 in 1901.

In 1891 14·5 per cent. of the inhabitants aged five years and upwards were illiterate (13·0 per cent. of the males, and 15·8 of the females); in 1901 the per centage was but 10·1 (9·0 of the males, and 11·1 of the females).

Printed image digitised by the University of Southampton Library Digitisation Unit

Religious Professions and Education (Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 11·5 per cent of Roman Catholics, 3·3 per cent. of Protestant Episcopalians, 1·9 per cent. of Presbyterians, 2·0 per cent. of Methodists, and 10·6 per cent of "all other Denominations" were illiterate.

School Attendance (Table xxxviii.)

The number of children attending school in the City of Dublin, according to the Census of 1891 (week ending 30th May), was 31,891, or 45·2 per cent. of persons aged 5 years and under 20 in the City as then constituted; in 1901 the number returned (for week ending 11th May) was 46,535, or 55·4 per cent. of the persons aged 5 and under 20.

The Sick (Table xii.)

In 1901 the number of persons in the City of Dublin returned as Sick, on the night of the Census, was 4,804, or one in every 60 of the population, of this number 263 were at their own homes, and 4,541 were in hospital.

Pauperism (Table xvi.)

The number of persons returned in 1901 as receiving relief under the Poor Law System was 9,543, or one in every 30 of the population, 6,024 of these being in the Workhouses, and 3,519 on outdoor relief.

Marriages, Births, and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act, which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of Marriages registered in the City of Dublin during the ten years ending 31st March, 1901, was 21,572, equal to an average annual rate of 8·5 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the City during the ten years was 80,634, affording an average annual rate of 31·9 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 75,442, being equal to an average annual rate of 29·9 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration (Table xii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County or City of Dublin, amounted to 10,615 (6,157 males and 4,458 females); the number for the decade ending 31st March, 1891, was 24,814; for that ending 31st March, 1881, 19,726; for that ending with March, 1871, 30,772; and for that ending with March, 1861, 25,755; making a total of 111,682 for the fifty years.

Note.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described —

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st. Its extent, as shown by the number of rooms, 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *viz.*, their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window, in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows, and in the first class all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz. —

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or 2nd class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications since 1841 to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in a school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Kildare; and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit, beginning with the Province of Leinster, to be followed by those of Munster, Ulster, and Connaught.

CENSUS OF IRELAND, 1901.

COUNTY OF KILDARE.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Kildare from the Census Returns of 1901.

SUMMARY.

Area.

The (Administrative) County of Kildare covers an area of 418,496 statute acres, or 2·0 per cent. of the total area of the country.

Population (Table I.)

The number of persons in the County of Kildare according to the Census was—in 1881, 75,804; in 1891, 70,206; and according to the recent Census, 63,566 (34,703 Males and 28,863 Females), or 9·45 per cent. less than in 1891.

Families and Houses (Table VIII.)

The number of distinct Families in the County at the time of the late enumeration was 12,528, the average number of persons in a family being thus 4·9; and the number of Inhabited Houses was 12,160, showing an average of 5·0 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms (Tables IX. & X.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 9,790, or 78·1 per cent of the total number of families in the County, and of these 2 were occupiers of part of a room only, 864 or 6·9 per cent. of the total number of Families in the County were occupiers of one room; 3,464 or 27·7 per cent. occupiers of two rooms; 3,478 or 27·8 per cent. occupiers of three rooms; and 1,982 or 15·8 per cent. occupiers of four rooms.

The number of Tenements of One Room in the County was 865, comprising 279 cases in which the room had only one occupant, 417 where the room had 2, 3, or 4 occupants; 134 cases in which there were 5, 6 or 7 occupants; and 35 cases where the occupants exceeded 7 in number, including 8 cases of 10 persons, 2 of 11 persons, and 1 of 12 persons in the room.

Co Districts (Table VI.)

The following Statement shows, by County Districts (as constituted under the Local Government (Ireland) Act, 1898), the number of persons in 1891 and 1901; and the increase or decrease during the decade:—

County Districts	Population		Increase or Decrease between 1891 and 1901		
			Number		Rate per cent.
	1891	1901	Increase	Decrease	
Athy Urban*	4,886	3,599	.	1,287	26·3
Naas Urban	3,735	3,856	101	.	2·7
Athy No. 1 Rural	14,030	12,595	.	1,437	10·2
Baltinglass No. 3 Rural	2,261	2,030	.	231	10·2
Celbridge No. 1 Rural	9,314	9,092	.	222	2·3
Edenderry No. 2 Rural	6,094	5,243	.	851	13·9
Naas No. 1 Rural	29,886	27,173	.	2,713	0·9
Total,	70,206	63,566	.	6,640	9·4

From the foregoing Statement it will be observed that there was an increase of 2·7 per cent. in Naas Urban District, and a decrease in Athy Urban and each of the Rural Districts, the highest per-centages of decrease being in Athy Urban and Edenderry No. 2 Rural, viz.—26·3 and 13·9 respectively.

Birthplaces of the Inhabitants (Table XXV.)

Of the persons enumerated in the County in 1901, 72·37 per cent. were born therein, 14·35 per cent. in other Counties of the Province of Leinster, 2·66 per cent. in Munster; 1·92 per cent. in Ulster; 1·20 per cent. in Connaught; 6·77 per cent. in Great Britain; and ·73 per cent. were born abroad.

Civic Areas (Table V.)

Towns having, in 1901, a population of 2,000 and upwards are classified in the Tables as Civic Areas.

The County contains three such Areas, viz., Athy, Naas, and Newbridge. In 1891 the population of the foregoing amounted to 11,828; in 1901 it was 10,338, showing a decrease of 1,490 persons, or 12·6 per cent; in the rural portion of the County the decrease was 8·8 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Kildare in 1901:—

Religious Professions (Table XXIX.)

Religious Professions	1901	
	Number of Persons	Per-centage of Total Population
Roman Catholics,	54,863	86·3
Protestant Episcopalians,	7,392	11·6
Presbyterians,	688	1·1
Methodists,	419	0·7
All other Denominations (and Religion unascertained),	194	0·3
Information refused,	10	.
Total,	63,566	100·0

From the above Table it will be seen that of the total population of the County in 1901, 86·3 per cent were Roman Catholics, 11·6 per cent. Protestant Episcopalians, 1·1 per cent Presbyterians, 0·7 per cent Methodists, and 0·3 per cent members of other Religious Denominations. In 1891 Roman Catholics formed 84·1 per cent.; Protestant Episcopalians, 13·0 per cent; Presbyterians, 1·9 per cent; Methodists, 0·8 per cent.; and members of all other Denominations 0·2 per cent. of the population of the County.

COUNTY OF KILDARE.

Education (Tables xxx and xxxiii)

The following Statement shows the Educational status of the Inhabitants of the County of Kildare in 1891 and 1901, in so far as relates to the degree of elementary education relative to which inquiry was made on the Census Forms:—

Degrees of Elementary Education	Rate per cent. of Total Population	
	1891	1901
Read and Writs,	68·9	75·8
Read only,	9·2	5·0
Illiterate,	21·9	19·7
Total	100·	100·

From the above it will be seen that whereas, according to the Returns of 1891, only 68·9 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 75·8 per cent could do so; that the per-centage of the population who could "read only" in 1891 was 9·2, and in 1901, 5·0; and that the per-centage of the "illiterate" fell from 21·9 in 1891 to 19·7 in 1901.

In 1891 14·1 per cent. of the inhabitants aged five years and upwards were illiterate (13·6 per cent. of the males and 14·7 of the females); in 1901 the per-centage was but 11·2 (11·1 of the males, and 11·2 of the females).

Religious Professions and Education (Table xxxiii)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 12·6 per cent. of Roman Catholics, 2·4 per cent. of Protestant Episcopalians, 1·2 per cent. of Presbyterians, 1·0 per cent. of Methodists, and 1·0 per cent. of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii).

The number of children attending school in the County of Kildare, according to the Census of 1891 (week ending 30th May), was 9,757; or 43·1 per cent. of persons aged 5 years and under 20 in the County, in 1901 the number returned (for week ending 11th May), was 9,896, or 52·1 per cent. of the persons aged 5 and under 20.

The Sick (Table xii)

In 1891 the number of persons in the County of Kildare returned as Sick, on the night of the Census, was 735, or one in every 96 of the population; in 1901 the number so returned was 620, or one in every 103 of the population; of the latter number 163 were at their own homes, and 457 were in hospital.

Pauperism (Table xii)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 2,196, or 1 in every 32 of the population; of this number 698 were inmates of Workhouses, and 1,498 were in receipt of outdoor relief; in 1901 the number returned was 1,784, or 1 in every 36 of the population; 783 of these being in the Workhouses, and 1001 on outdoor relief.

Marriages, Births, and Deaths (Table xiv)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Kildare during the ten years ending 31st March, 1901, was 3,081, equal to an average annual rate of 4·6 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 14,438, affording an average annual rate of 21·6 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000

The Deaths registered during the decennium amounted to 11,590, being equal to an average annual rate of 17·3 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration (Table xii)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Kildare, amounted to 2,113 (1,251 males and 862 females); the number for the decade ending 31st March, 1891, was 8,249; for that ending 31st March, 1881, 5,883; for that ending with March, 1871, 7,419; and for that ending with March, 1861, 12,257, making a total of 35,921 for the fifty years.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st. Its extent, as shewn by the number of rooms. 2nd, its quality, as shewn by the number of its windows, and 3rd, its solidity or durability, as shewn by the materials of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window, in the third a better description of house, varying from one to four rooms and windows. In the second what might be considered a good farm house, having from five to nine rooms and windows, and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of first class houses occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications since 1841 to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891), that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest, and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Kilkenny, and purpose giving similar Tables from time to time, for each County, at such intervals as the progress of the work will permit, beginning with the Province of Leinster, to be followed by those of Munster, Ulster, and Connaught

CENSUS OF IRELAND, 1901.

COUNTY OF KILKENNY.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Kilkenny from the Census Returns of 1901.

SUMMARY.

The (Administrative) County of Kilkenny covers an area of 511,775 statute acres, or 2·5 per cent. of the total area of the country. Area.

The number of persons in the County of Kilkenny according to the Census was—in 1881, 99,826; in 1891, 87,496; and according to the recent Census, 79,159 (40,095 Males and 39,064 Females), or 9·53 per cent. less than in 1891. Population (Table ii.)

The number of distinct Families in the County at the time of the late enumeration was 16,295, the average number of persons in a family being thus 4·7, and the number of Inhabited Houses was 15,986, showing an average of 4·8 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted. Families and Houses. (Table viii.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 11,603, or 71·2 per cent. of the total number of families in the County, and of these 13 were occupiers of part of a room only; 1,089 or 6·4 per cent. of the total number of families in the County were occupiers of one room; 3,464 or 21·3 per cent. occupiers of two rooms; 4,019 or 24·7 per cent. occupiers of three rooms; and 3,068 or 18·8 per cent. occupiers of four rooms. Occupiers of less than 5 rooms (Tables ix. x.)

The number of Tenements of One Room in the County was 1,043, comprising 379 cases in which the room had only one occupant; 501 where the room had 2, 3, or 4 occupants; 121 cases in which there were 5, 6, or 7 occupants; and 42 cases where the occupants exceeded 7 in number, including 21 cases of 8 persons, 13 of 9 persons, 3 of 10 persons, 4 of 11 persons, and 1 of 12 persons in the room.

The following Statement shows, by County Districts (as constituted under the Local Government (Ireland) Act, 1898), the number of persons in 1891 and 1901, and the increase or decrease during the decade :— Co. Districts. (Table vi.)

County Districts	Population.		Decrease between 1891 and 1901	
	1891.	1901.	Number	Rate per cent.
Kilkenny Urban	11,048	10,609	439	4·0
Callan No. 1 Rural	9,039	8,163	876	9·7
Carrick-on-Suir No. 3 Rural	5,121	4,466	655	12·8
Castlecomer Rural	11,499	10,114	1,385	12·0

Waterford No. 2 Rural	11,008	9,863	1,145	10·4
Total	87,496	79,159	8,337	9·5

From the foregoing Statement it will be observed that the highest per-centage of decrease in the County Districts took place in Carrick-on-Suir No. 2 Rural and Castlecomer Rural, viz., 12·8 and 12·0 per cent. respectively, and the lowest in Kilkenny Urban and Urlingford No. 1 Rural, viz., 4·0 and 8·4 respectively.

Of the persons enumerated in the County, exclusive of the City, in 1901, 90·15 per cent. were born therein, 4·87 per cent. in other Counties of the Province of Leinster; 3·73 per cent. in Munster, 0·37 per cent. in Ulster, 0·42 per cent. in Connaught, 0·69 per cent. in Great Britain, and 0·27 per cent. were born abroad. Birthplace of the Inhabitants (Table xxv.)

Of the persons enumerated in the City of Kilkenny in 1901, 82·15 per cent. were born in the County or City of Kilkenny; 5·45 per cent. in other Counties of the Province of Leinster; 4·56 per cent. in the Province of Munster, 0·98 per cent. in the Province of Ulster, 0·65 per cent. in the Province of Connaught; 5·58 per cent. in Great Britain, and 0·63 per cent. were born abroad.

Towns having, in 1901, a population of 2,000 and upwards are classified in the Tables as Civic Areas. Civic Areas. (Table v.)

The County contains one such Area, viz., Kilkenny. In 1891 the population of that Area amounted to 11,048, in 1901 it was 10,609, showing a decrease of 439 persons, in the Rural portions of the County the decrease was 10·3 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Kilkenny in 1901 :— Religious Professions (Tables xxix and xxix A.)

Religious Professions.	1901	
	Number of Persons	Per-centage of Total Population
Roman Catholics	74,830	94·5
Protestant Episcopalians	3,978	5·0
Presbyterians	170	0·2
Methodists	114	0·2
All other Denominations (and Religion unascertained)	65	0·1
Information Refused	2	.
Total	79,159	100·0

From the above Table it will be seen that of the total population of the County in 1901, 94·5 per cent. were Roman Catholics, 5·0 per cent. Protestant Episcopalians, 0·2 per cent. Presbyterians, 0·2 per cent. Methodists, and 0·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 94·8 per cent.; Protestant Episcopalians, 4·7 per cent.; Presbyterians, 0·2 per cent.; Methodists, 0·2 per cent.; and Members of all other Denominations, 0·1 per cent. of the population of the County as then constituted.

Education (Tables xxx and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Kilkenny in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	67·0	75·1
Read only,	9·7	5·6
Illiterate,	23·3	19·3
Total,	100·	100·

From the above it will be seen that whereas, according to the Returns of 1891, only 67·0 per cent. of the Inhabitants, at all ages, could "read and write," in 1901 75·1 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 9·7, and in 1901 5·6; and that the per-centage of the "illiterate" fell from 23·3 in 1891 to 19·3 in 1901.

In 1891 15·8 per cent. of the inhabitants aged five years and upwards were illiterate (14·7 per cent. of the males, and 16·8 of the females); in 1901 the per-centage was but 11·3 (10·9 of the males, and 11·8 of the females).

Religious Professions and Education (Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 11·8 per cent. of Roman Catholics, 3·2 per cent. of Protestant Episcopalians, and 2·7 per cent. of Methodists, were Illiterate, and that no Presbyterians and none of "all other Denominations" were so returned.

School Attendance (Table xxxviii.)

The number of children attending school in the County of Kilkenny, according to the Census of 1891 (week ending 30th May), was 15,315, or 52·8 per cent. of persons aged 5 and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 12,568, or 53·8 per cent. of the persons aged 5 and under 20.

The Sick, (Table xii.)

In 1891 the number of persons in the County of Kilkenny (as then constituted) returned as Sick, on the night of the Census, was 811, or one in every 103 of the population; in 1901 the number so returned was 729, or one in every 109 of the population; of the latter number 329 were at their own homes, and 400 were in hospital.

Pauperism. (Table xii.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 3,231, or one in every 27 of the population; of this number 1,086 were inmates of Workhouses, and 2,145 were in receipt of outdoor relief; in 1901 the number returned was 2,393, or one in every 33 of the population, 950 of these being in the Workhouses, and 1,443 on outdoor relief.

Marriages, Births and Deaths (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union Forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Kilkenny during the ten years ending 31st March, 1901, was 3,517, equal to an average annual rate of 4·2 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 17,325, affording an average annual rate of 20·8 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 15,494, being equal to an average annual rate of 18·6 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xi.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Kilkenny, amounted to 4,835 (2,513 males and 2,322 females); the number for the decade ending 31st March, 1891, was 13,247; for that ending 31st March, 1881, 9,133; for that ending 31st March, 1871, 12,338; and for that ending with March, 1861, 34,010, making a total of 73,563 for the fifty years.

(a) See Note (b).

(b) The remainder of the town of Bennettsbridge is in the D. of Thomastown and in the D E D of Bennettsbridge; this portion stands on the townland of the same name, in which its area and valuation are included; the whole town has an estimated area of 15 acres.

(c) The decrease was attributed to removals from the townland since 1881.

(d) The decrease is attributed to removals from townland owing to houses having fallen.

(e) The remainder of the town of Stonyford is in the D E D of Stonyford. This portion stands on the townland of Lawcus, in which its area and valuation are included. The entire townland has an area of 16 acres. (a) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 Inhabitants and upwards

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—
The value or condition of a house, as to its quality, may be considered to depend mainly on—
1st. Its extent, as shewn by the number of rooms; 2nd, its quality, as shown by the number of its windows, and 3rd its solidity or durability, as shewn by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements i.e., their actual state.
Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.
The accommodation which the houses afford has also been arranged under four classes, viz.:—
First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.
